

FOR IMMEDIATE RELEASE

January 5, 2009

Applied Technology Solutions Announces New CEO

It is my pleasure to notify you that Scott Woodward has been chosen to be the next Chief Executive Officer of Applied Technology Solutions. Scott succeeds Don Stockton, who dedicated 40 years of service to Cooperatives Computer Center, the parent company of ATS. Scott's background includes 15 years with Publix Supermarkets, his last four in a management capacity. After graduating with a Bachelor of Science Degree in Accounting at the University of Florida, he spent five years in the Trust (Retirement) Services industry, the last two with Wachovia Bank.

Scott's past nine years have been spent with ATS. From a CIS Conversion Specialist, to his most recent position as Vice President of North Carolina Operations, Scott has served our clients in nearly every capacity. His next step is to move ATS forward in our three business units, including software, print, and hardware services.

Please join me in congratulating both Scott on his promotion, as well as Don on his retirement.

Sincerely,

J. Ronald McElheney

Chairman, Board of Directors
